Public Comment.

Joshua Victor asked the Planning Commission to consider removing the carport requirements from the Sweet Home Municipal Code. He discussed his reasons with the Commissioners. Victor supplied written comments and photos for the record.

Parker discussed the code and informed Victor that the Commission will discuss the code. Wolthuis asked to put the topic on the February agenda for discussion. Melcher asked if it would require a code amendment and if it complies for a variance. Clegg verified that it would require a code amendment and that it would not qualify for a variance. Wood asked Victor of his knowledge of the code and why should the Commission make an exception. Victor explained that he is looking for a

change for all of Sweet Home, not just himself. Wood asked staff about the process for a code change. Clegg explained the text amendment process and explained that any past or current building permits will be required to comply with the code that it was approved under and could not apply any future code changes.
