ALARM ORDINANCE PERMIT INFORMATION

The City of Sweet Home has enacted an ordinance requiring that persons who have a burglary or robbery alarm which summons police to any building or premises must obtain an alarm user permit. Alarm users who have more than two false alarms during the permit period (calendar year) are subject to a surcharge.

The Police Department administers this program for the City of Sweet Home. The ordinance was enacted because over 90% of alarms are false. It is important that we reduce the number of false alarms so that police will have more time to perform other necessary services.

In addition to reducing the number of false alarms, the permit system contributes to more effective police response. The permit system will provide current premise or occupant information for the safety and protection of users and emergency responders.

PERMIT FEE SCHEDULE

Permits are \$5 a year for a burglary or robbery alarm. Permits are valid from January 1st through December 31. Each year the permit must be received by February 15 or a permit delinquency charge may be assessed. New permits for alarm systems installed after August 1 of each year will be valid until December 31 of the following year.

No permit fee is required for a residential alarm user over the age of 65 years or for governmental agencies; however, a **permit is still required.**

SURCHARGES FOR FALSE ALARMS

1 st false alarm in permit year	No fine
2 nd false alarm in permit year	No fine
3 rd false alarm in permit year	\$25.00
4 th false alarm in permit year	\$25.00

False alarms do not include alarm signals caused by violent conditions of nature or other extraordinary circumstances not reasonably subject to control by the alarm user.

SOUND EMISSION CUTOFF FEATURE

It is a violation of the ordinance for an audible alarm that can be heard outside the building or structure to sound for more than 15 minutes. The audible alarm must be equipped with a sound emission cutoff feature.
